

COMO CRIAR TABELAS INCRÍVEIS NO R

nov/2021

Pacote knitr + kableExtra

```
install.packages("knitr")
install.packages("kableExtra")

library(knitr)
library(kableExtra)

dt <- mtcars[1:5, 1:6]

dt %>%
  kbl(booktabs = T,
      caption = "Primeira Tabela") %>%
  kable_classic(full_width = F,
                font_size = 12,
                latex_options = c("hold_position"))
```
